BUILDING PERMIT APPLICATION REQUIREMENTS FOR SIGNS

There are Zoning requirements that need to be satisfied, so, to determine when a Zoning permit is required see the Johnson County Unified Development Ordinance at www.johnson-county.com or call and speak to Rick Dvorak or RJ Moore @ 319 356-6085 in the Planning office.

When it has been determined that a sign is permitted, and a building permit is required:

1. Fill out a Building Permit Application Form. It can be done at the time of application at the Johnson County Building Inspections Office. If you wish to mail the application, it may be obtained online at www.johnson-county.com. You must submit the estimated cost of project on the form.
2. Provide two sets of building plans providing adequate information that the sign is designed to withstand a 90 mph wind load as per chapter 16 of the IBC.
