## Important Rail Traffic Information

June 10, 2011

Due to flooding throughout the Midwest, Union Pacific will be routing up to eight trains daily on the Iowa Interstate Railroad through your community. These trains may be longer than the typical trains on this route and may cause an extra few minutes wait at road crossings.

For their safety and that of our train crews, Union Pacific strongly encourages motorists and pedestrians to heed warning devices at railroad crossings and remain alert for additional train traffic during the duration of the Midwestern flooding.

Please share this information with your community as you deem appropriate. If you have any questions, please contact me by e-mail at [brendamainwaring@up.com](mailto:brendamainwaring@up.com) or phone at 402-544-4749.

Thank you.

Brenda Mainwaring
