

October 15, 2009

Sir or Madam,

This letter is to express my interest in the **Johnson County Board of Supervisors** position. I have a strong interest in local government, and can provide the leadership needed to ensure social, economic, and civic growth. I desire to give back to my community, and this position offers the opportunity to make a positive impact through public service.

My resume highlighting technical and leadership capability is enclosed. My military, educational, and technical backgrounds enable leadership abilities necessary for successful contribution to the board. In my current role I am leading the Electrical Design and Installation of an \$11M manufacturing project requiring contact with and coordination between many organizations.

In addition to my leadership skills I am an innovative thinker with a positive attitude who works well in group settings, and drives change. Currently, I am cultivating community enhancement opportunities through two avenues, *Making the Cut* and *Boys and Girls Clubs of America*. In 2006, 2008, and 2009 I led a community effort through *Making the Cut* to provide free haircuts to youth prior to the new school year. This annual effort brings together many individuals and business in the local area to ensure youth return to school feeling their best. Additionally, I am evaluating a solution to juvenile delinquency in SE Iowa City, the implementation of a chapter of the *Boys and Girls Clubs of America*.

I am excited about the County Board Supervisor position and the ability to help this community succeed. Thank you in advance for your time. Please do not hesitate to contact me if you have any questions. I would appreciate the opportunity to review my qualifications in more detail.

Sincerely,

Kenya Badgett
