**Dear Search Committee Member,**

**I write to support the naming of Michael Lehman to fill the position on the Board of Supervisors left vacant by the death of Larry Meyers. I believe that he has a proven track record as a supervisor with broad experience in area development, land usage, human services and indeed the entire composite of the knowledge/experiences the job demands. He is up to speed on all issues of importance, understands the protocols and operation of the BOS firsthand and will provide an un-interrupted flow of transition and progress. I endorse him with no reservations.**

**Sincerely,**

  
**June R. Braverman, Ph.d
