Dear Statutory Committee:

I am submitting my name for consideration in finishing the term on the Board of Supervisors for the late Larry Meyers.

Our county is very unusual in that we have possibly the 6th largest population center in the state and still have a large portion of our county in the rural areas. I grew up on a farm and understand the challenges facing the shrinking family farm as the cities grow. We need to maintain these "green areas" and continue our extensive trail system to provide recreation for our residents and tourists, boosting our economy.

We are entering historic times as a county. With the recent 10% across the board cut of the state budget there will be many tough decisions that will have to be made so that we can maintain our current level of service to our residents. We are very fortunate that our county is one of the few in Iowa that is still growing but with possible layoffs ahead for our largest employer the demand for county services will increase. I will look at the whole picture and research what has been done in other counties and states that may enhance our services to our residents and make sure that we maintain the current level of services but with a leaner budget.

I will bring integrity to the job. I do not have a personal agenda to fulfill. I am not a member of any organizations that would want to influence me in the hard choices ahead. I can truly look at both sides of the issues and strive to work together in making decisions that will be best for all involved. I would be very grateful if you allow me to finish out this term on the Board of Supervisors. Thank you for your consideration.

Sincerely,

Cindy Phillips
